

## SPARE PARTS FOR TEXTILE SPINNING MACHINES

**SEOW YI -**  
*YOUR RELIABLE SOURCING PARTNER*

# MOST ECONOMY WAY TO GET COMPACT YARN!

## General informations of “Seow Yi” Compact:

- All standard Compact Parts ( Gear Box Eli-Top with Cots , Eli-Tube with Tension Bars & Mesh Aprons , etc.)
- Newly designed Pneumafil Box to house the existing Pneumafil Suction Fan with Motor
- Central Suction System with nicely designed two ducts on top of both sides of Creel . Ducts are made from Steel & not ordinary PVC Pipes .
- Fan with Motor
- For equal / uniform Suction Frequency Converter/Inverter ( Lenze / SMV from USA )
- Suction Flutes ( Aluminum )
- Roller Stand ( Optional , although we did not charge for it )
- Nose Bar / Bottom Apron Bar ( Optional , although we did not charge for it )
- Installation & Commissioning by Two Chinese Engineers ( One for Mechanical & one for Electrical )

## The principles of the “Seow Yi” Compact

- Processing of carded and combed cotton, man-made fibres and their blends as well as woolen
- Elimination of the spinning triangle
- Condensing of the drafted fibre strand by air flow
- Imbedding of all fibres and fibre ends into the yarn body

## Main Benefits in Spinning

- Higher yarn strength by up to 25%
- Higher work capacity by up to 30%
- Better yarn evenness
- Better IPI imperfection values
- Less twist insertion by up to 15%
- Ends-down rate reduced by up to 60%
- Use of less fibres or less expensive materials
- Fibre loss reduced up to 0.01%

NO MORE WAITING FOR COMPACT CONVERSION

## “SY” Lattice Apron Sizes :

Code	Size	Application	0.065	0.08	0.10
1	36.5*25mm	For Sussen and China WB	Density: 160	Density: 140	Density: 120
2	34.9*25mm	For Old Toyota			
3	39.4*17mm	For New Toyota	Any count above 40's	Count 40's-80's	Count below 40's, Coarse count, wool spinning
4	43.5*18mm	For Pinter			
5	37.5*22mm	For China compact(RF)			
6	38.9*25mm	For China compact(HFJ)			
7	40.8*25mm	For China compact(TH)			

## “SY” Lattice Apron Specifications:

Code	Treatment	Color	Life	Cleaning	Cost
1	Sliver coated	Gold	8-10months	3 weeks	High
2	Full Carbon coated	Dark black	6-8 months	2 weeks	Medium
3	Carbon coated (Warp)	Light black	Above 6 months	1 week	Low
4	Carbon coated (Weft)	Light black	Above 6 months	1 week	Most competitive

## “SY” Lattice Aprons Advantage:

- Anti-static performance**  
Our Lattice Aprons are made by high anti-static yarn from DuPont USA original. The yarn strength is perfect. And the yarn is treated by electric carbon with black color. So we can get the best antistatic performance.
- Stability of size**  
It is treated by special heat setting technology. We can get the good stability for its size although it is running in bad moisture condition.
- Ventilate performance**  
Its mesh is well-proportioned in the basic fabric. The proper density of weaving and diameter of yarn can be suitable for all kinds of yarn for compact spinning.
- Stronger Edge**  
Lattice Apron life is mostly depended on its edge. Our Lattice Apron edge cutted by special technology, smooth and strong, life getting longer.
- Better protection**  
Special weaving to protect the Elite Tube.

SYC-1 TOP ROLLER FOR  
SUSSEN DRAFTING

SYC-2 WIDE ELITE TOP  
SYC-3 NARROW ELITE TOP

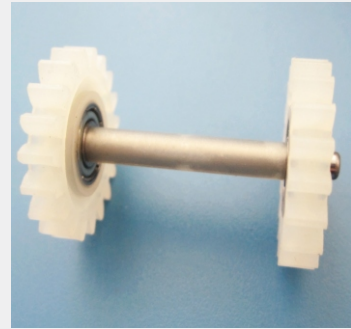

SYC-4 TOP ROLLER FOR  
SKF DRAFTING

SYC-5 intermediate wheel

SYC-6 intermediate wheel

SYC-7 intermediate wheel

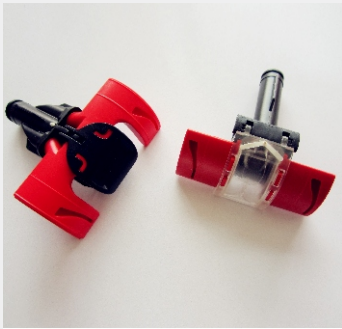

SYC-7 Elite Tube

SYC-8 CERAMIC INSERTS  
SYC-9 PLASTIC PRESS INSERTS

SYC-10 SUCTION TUBE SHORTER  
SYC-11 SUCTION TUBE LONGER

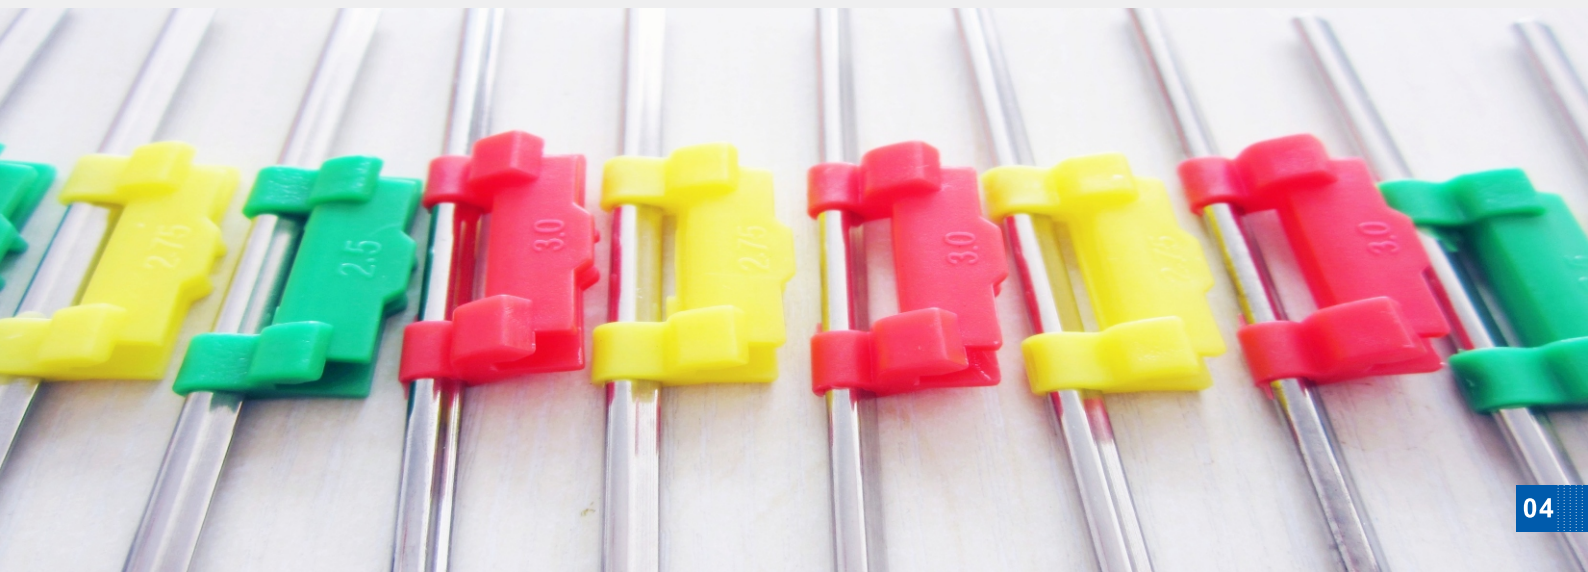

SYC-12

SYC-13

SYC-14

## OPEN END MACHINERY SPARE PARTS

- ROTOR BEARING
- ROTOR COMPLETE
- RESILIENT MOUNTING SERIES
- OPENING ROLLER BEARINGS
- OPENING ROLLER COMPLETE
- PRESS PULLEY BEARINGS
- BACKLITE PRESS PULLEY COMPLETE
- ALUMINIUM ALLOY(STEEL) PRESS PULLEY COMPLETE
- SUPPORTING COMPLETE
- INSERTS,SEPARATORS
- NAVELS
- OTHER COMMON SPARE PARTS

## TEXTILE RING SPINNING MACHINERY SPARTS PARTS

- ◆ RUBBER COTS AND APRONS
- ◆ STEEL RINGS AND RING TRAVELLER
- ◆ RING BOBBINS, SIMPLEX BOBBINS, DOFFING BOX
- ◆ RING FRAME SPINDLE AND FLYER
- ◆ RING FRAME PIN AND PIN CRADLES
- ◆ TOP ARM DRAFTING AND ROLLERS
- ◆ BOBBIN HANGERS
- ◆ SNAIL WIRES
- ◆ TOP ROLLER BEARINGS
- ◆ OTHER PARTS
