
Bobbin Hanger DD2-KHK for textile spinning machine ring frame

Bobbin Hanger DD2-KHK for textile spinning machine ring frame

- DD series bobbin hanger can be equipped with each ring spinning frame, and be suitable for each roving bobbin to hang. Bobbin hangers are made

from imported polyformaldehyde.

- The usual type of DD series is suitable for the bobbin of which the celcon bush is less than 25. If more, we need special designing.

Model of Bobbin hanger	Suitable for dia. of bobbins/mm	Pawl open width/mm	Remarks
DD2-1800	19. 3, 20, 22. 3, 25. 2	32	(General type)
DD2-1800P	19. 3, 20, 22. 3, 25. 2	32	(Standby spindle)
DD2-2200	22. 3, 25. 2	34	(Applied for large roll)
DD2-2200P	22. 3, 25. 2	34	(Standby spindle)
DD3-1800	19. 3, 20, 22. 3, 25. 2	32	(Export oriented)
DD3-1800P	19. 3, 20, 22. 3, 25. 2	32	(Standby spindle)
DD5-1800	19. 3, 20, 22. 3, 25. 2	32	(Plastic spindle)
DD5-1800P	19. 3, 20, 22. 3, 25. 2	32	(Standby spindle)

KHK-A type bobbin hanger is applied to creel of various spinning frame, which can be suitable for spinning of all types of roving bobbin

Main purposes of bobbin hanger on creel are given as below:

- Replace the roving with extending and shrinking of branch sheet.
- 2With proper and stable attractive force of bobbin hanger, it can ensure normal rotation of roving during spinning.
- Compared with normal bobbin hanger, KHK-A bobbin hanger has such advantages as accurate action, proper attraction force and reliability and durability.

Grade	Attractive Force(g)	Suitable Spinning Branch
1	2~3	High yarn count
2	3~4	Medium yarn count
3	4~5	Medium yarn count
4	5~6	Low yarn count
